

## MY SACHAJI

A pioneer in wellness in Ecuador, immersed in Andean healing traditions and led by experienced healers, we created My Sachaji ecolodge as a space for guests to disconnect, find balance, relax and delight in majestic views over San Pablo Lake and the imposing Imbabura volcano in the northern Andes.

### LOCATION

Nestled on Cusin Volcano, Ecuador's oldest dormant volcano just 15 km (nine miles) from the famous Otavalo Indian market, we are just 96 km (60 miles) from Quito and a mere 60 km (37 miles) from the airport.

### ACCOMMODATION

Our 11 cozy rooms, nestled subtly into the hillside with views to the volcano or lake, are the ideal retreat for when the mist rolls in and the grounds are lit by the stars.

Fitted with king size beds or two twin beds, a fireplace or energy-efficient heating systems, duvets, thermal windows, and thick blackout curtains, rooms also come with a poncho to wear, like a warming Andean embrace.

All rooms have a private bathroom, and have been individually decorated with Andean rugs, hand-embroidered shower curtains made by the local community, contemporary Ecuadorian photography and 18th century Spanish wooden windows, all giving each room its own character.

### SERVICES & FACILITIES

- Delicious holistic breakfast
