

HAKUNA MATATA AMAZON LODGE

Hakuna Matata means “no worries” and this is exactly what the lodge offers you as a guest! You can enjoy the exotic Amazon rainforest in a relaxed, carefree atmosphere. Our comfortable eco cabins offer a friendly and homely environment. The combination of a rustic design, careful adaptation and respect for the environment implemented with world class standards, have given way to the perfect atmosphere to enjoy the jungle in high end comfort. If you look for exciting adventures or just want to relax on a hammock in our extended tropical garden, Hakuna Matata is the perfect backdrop for an Amazon jungle experience.

LOCATION

In the heart of Ecuador at just 3 ½ hours from Quito, our lodge is close yet off the beaten path, far away from mainstream tourist routes, you will find a small hidden paradise in the Ecuador Amazon basin. The ideal location, between 600 mts (1968 ft.) and 850 mts (2788 ft.) above sea level, a moderate temperature and a micro-bioma made up of heliconia’s and bromelia’s plants create the perfect mosquito free setting for a relaxed stay.

ACCOMMODATION

Each room has a small balcony, modern bathrooms with organic amenities and hot water, orthopedic mattresses and high-quality gel pillows. All these features are tastefully combined to create the ideal resting spot for a great sleep. Our 16 rooms blend in perfectly without intruding into our tropical gardens; they are distributed into 4 different categories:

- Hakuna Cabins: our most rustic design makes our small wooden bungalows the most authentic part of the lodge. These simple yet cozy rooms cater to our more adventurous guests who search for a more pure Amazonian design. We have 5 twin or double cabins and a family cabin (4-person capacity).
- Hakuna Lodge: the main house, built from wood, is made up of 3 double / twin rooms and a family room (4-person capacity). The location at the hilltop makes it a great place to enjoy views of the surrounding forest. A favorite area is the common hammock terrace and outdoor lounge.
- Hakuna Supreme: this area caters to guests who search for that extra level of comfort. We have 5 supreme double rooms, one of them for families (4-person capacity).
- Hakuna Suite: our largest and newest room, specially designed for our VIP guests, it is separate from other areas for some extra privacy and an almost direct access to the pool. It has panoramic windows with amazing views of our garden, the rainforest in the background and a private outdoors terrace lounge.
