

## HACIENDA LA CIÉNEGA

Hosteria La Cienega is one of the oldest colonial haciendas in Ecuador, with more than 400 years of antiquity. Located near the slopes of the majestic Cotopaxi volcano and its National Park, this mansion has been the scene of important events in the country's scientific and social history. Today, turned into a luxury boutique hotel, La Cienega offers the visitor the unique experience of staying within its walls of volcanic stone two meters thick that are silent witnesses of the history of a village and the poetry of an era. Surrounded by the stunning natural beauty of the landscape and the rich folklore of the indigenous people of Ecuador, La Cienega is an unforgettable memory of your visit to the Andes.
