CRISTÓBAL GONZÁLEZ GUZMÁN

I am an established visual artist from Quito, Ecuador. Mainly, a colorist. I have shown my work individually for more than 30 occasions, here and abroad.

EXPERIENCE

I just finished showing 125 works of mine from different times. This was done in a non-traditional setting which was very challenging for me. I used a restored old house and converted it into a museum and or gallery for one night only.

EXHIBITIONS

As I mentioned I am a colorist with a recognized style here in Ecuador: I have been told that I have Picassiano influences which I do, unintentionally. I always express what is going on in my personal context.
