

# GREAT ESCAPE TO SAN ISIDRO CABINS

GREAT  
ESCAPES

San Isidro is in Cosanga, 20 minutes from Baeza, in Napo. It is a natural reserve of over 2,000 hectares of primary cloud forest that forms an ecological corridor between the Antisana Reserve and the Sumaco National Park. With an immense variety of plants and animals, “getting lost” is part of the fun, and exploring the grounds is quite an adventure. Daily excursions to the Cosanga River allow visitors to observe pristine waterfalls, visit an orchid garden, discover a medicinal herbarium, take night walks, go kayaking, and make handicrafts, all surrounded by the most abundant vegetation and variety of wildlife in the region. Ideal for families!
