

## EI PORVENIR – THE COTOPAXI EXPERIENCE

Hacienda El Porvenir – Tierra del Volcán - is in a privileged position on the base of the Rumiñahui volcano and facing the world's largest active volcano. It is the ideal place to explore the Cotopaxi National Park and experience the Andean lifestyle first-hand while mountain biking, horseback riding, or trekking. Prepare for an amazing getaway!

At El Porvenir, you can also see various high-altitude birds (condors are frequently spotted) and native flora against a backdrop of spectacular scenery. Some trails can take you up to 4,200 meters above sea level. Horseback riding is one of the most popular excursions because you explore the grounds with experienced Andean cowboys (chagras) who share the legends, history, and traditions of the land. After an exhilarating day of nature and adventure in the heart of the Andes, relax at the hacienda, enjoy the local cuisine, and unwind in the cozy living room to pick out the day's best photos.
